

## PROJECT PROFILE

### The Old Clare Hotel

#### ABOUT THE PROJECT

The Old Clare Hotel is the result of a five year project combining a 1939 Art Deco Pub with the Victorian era 1915 CUB Headquarters in a contemporary but heritage respecting transformation designed by Tonkin Zulaikha Greer Architects (TZG).

The illuminated glass clad oval bar is the centrepiece of the reincarnated original pub bar space. The amber tones of the glass are designed to reference the history of the site formerly housing the Tooth & Co. Brewery. The golden colours representing KB Lager, Kent Old Brown and Reschs beer and beer bottles.

Glass colours were selected following exhaustive sampling and assessment in lightbox mockups. BCG has custom laminated clear curved and flat glass by encapsulating a coloured printed insert with eva interlayers. Clear to the front and a diffusing White opaque to the rear of the insert.

112 individual pieces of curved and flat glass have been meticulously face glazed into the recesses of the industrial style steel structure of the Bar and Reception Counter elements on the ground floor street level. The patterned layouts create a lively retro ambience. The finished project has become a key element in the success of the new "Kensington Street Precinct" entertainment area just off Broadway.

## The Old Clare Hotel

### GLASS DESCRIPTION

Custom coloured graphic laminated curved and flat glass - Montage graphix coloured insert.

### ARCHITECT

Tonkin Zulaikha Greer Architects

### BUILDER

Elan Construction Pty Ltd

### GLAZING INSTALLATION

WellFix Glass & Aluminium
